

Muhammad Talha Tariq

SOFTWARE ENGINEER

SUMMARY

Energetic and focused student studying Computer Science, eager to dive into the world of web development through an internship. I know my way around MERN Stack Developer, especially HTML5, CSS3, Javascript, React js Node js ,Express js MongoDB, Tailwind css, etc. Ready to learn and contribute to cool web projects. A good team player with strong communication skills, seeking an internship to put my coding skills into action and gain hands-on experience.

PROJECTS

Online Coffee Shop

Coffee Shop *Apr 2024 - Jun 2024*

- My latest project is an online coffee shop, where I am improving my skill set using React. This user-friendly, fully responsive web application features smooth navigation, allowing users to book tables online. It is a single-page application designed to enhance the user experience with modern web development techniques.

Todo List

Todo List *Oct 2023 - Oct 2023*

- Todo List with persistent local storage functionality! This feature-rich application boasts a dynamic React UI, ensuring a seamless and responsive user experience. The magic lies in the local storage integration, allowing users to retrieve and continue managing tasks even after closing the browser.

Password Generator

Password Generate *Nov 2023 - Nov 2023*

- Building a password generator using JavaScript and React logic can be a great beginner project as it involves fundamental concepts of programming and allows you to practice your coding skills while creating a useful tool.

Portfolio

Personal poerfolio *Mar 2024 - Mar 2024*

- My personal portfolio website represents a culmination of my skills in React and Next.js, combining them to create an engaging platform showcasing my projects, experiences, and expertise.
